Wrinkle Concealing Cream

Formula G506 (with COENZYME Q10 LIPOSOMES)

PRODUCT PROFILE: This is our latest **concentrated Wrinkle hiding cream. It works instantly to make fine lines and wrinkles appear to vanish, and it moisturizes and protects!** It works by a clever “optical illusion” caused by optimized light dispersing crystals. This soft silicone formula makes wrinkles and fine lines “appear to disappear” while it moisturizes, and plumps-up the skin. When you cannot wait for products providing a permanent improvement to start working ?? This concealer will hide your age for an afternoon or evening.

Hint: (For better effect use it with a more permanent wrinkle treatment !)

PRODUCT BENEFITS: This Magical cream contains Light dispersing agents, with Aloe, Lipoic and Vitamins to help you fight the appearance of aging.

1. **Your Skin makes wrinkles and fine lines due to a sun-weakened collagen support layer. But these fine lines will no longer be darkened valleys when they are illuminated..**
2. **UV Blocking is important to avoiding wrinkles but once you have them, what can we do? We can let the tiny prisms do their work.:**
3. By scattering over 80% of the visible light that illuminates your skin this formula eliminates dark unlit wrinkle valleys. The scattered light actually lights up the dark walls of each wrinkle.
4. Some makeup contains tiny prisms to provide a “soft focus” effect. All we did was match the light scattering angles of these micro-prisms to maximize their wrinkle hiding ability

PACKAGING: This incredible formula may be packaged in glass or plastic (HDPE, PVC or PETE). If you chose a treatment pump, it must include stainless steel spring and ball parts for compatibility with silicone.

INGREDIENTS: Cyclopentasiloxane, Dimethicone Crosspolymer, Octylmethylcyclotetrasiloxane, **Silica**, Polymethylsilsesquioxane, Iodopropynyl Butylcarbamate, Lecithin, Ubiquinone, (Coenzyme Q10).

Thank you for taking a moment to evaluate our new product.
